

TRANSPORTATION SERVICES

KETEK
GROUP

Results Driven.

Ketek's fleet includes lowboys, flatbeds, winch, picker and bed trucks, hotshots, pilot trucks and more. We use our fleet to transport our own equipment and personnel to and from the field and to provide our many services, so we know which unit will fit the job best.

With 40 years of experience and six operational centres across Western Canada, we cater to oilfield and other industrial clients. Our personnel are pre-approved on many vendor sites, making access quick and efficient. We also work extensively for cities and towns in the Western provinces.

Ketek has the fleet, the people, the systems and the determination to offer safe, responsive service

EDMONTON • FORT MCMURRAY • GRANDE PRAIRIE • FORT ST. JOHN • FORT NELSON • SASKATOON

Our Fleet

Whether you need a lowboy, a picker or just about anything else, Ketek has the truck to do the job

Hotshots

Ketek's trained personnel are on most vendor lists so can access most industrial sites in Western Canada. From motors to chairs to client employees, we can deliver it all.

Bed Trucks

For the heaviest loads in the toughest conditions. Our bed trucks feature a 100" roller width and a 22' deck.

Winch Trucks

Used to move tanks, heavy equipment, job shacks and camp trailers.

Pilot Trucks

Ketek can support your next heavy-haul project with care and expertise.

Scissor Neck

Versatility is the key with this oilfield workhorse.

Light Picker

Ketek's seven-ton knuckle picker has a 23' deck and is ideal for jobs that require mobility and flexibility.
